Specification

The examiner has not checked the specification to the extent necessary to determine the presence of **all** possible minor errors (grammatical, typographical and idiomatic). Cooperation of the applicant(s) is requested in correcting any errors of which applicant(s) may become aware of in the specification, in the claims and in any future amendment(s) that applicant(s) may file.

Applicant(s) is also requested to complete the status of any copending applications referred to in the specification by their Attorney Docket Number or Application Serial Number, **if any**.

The status of the parent application(s) and/or any other application(s) cross-referenced to this application, **if any**, should be updated in a timely manner.

Response to Amendment

The amendment filed 11/20/03 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: Applicants have amended page 46 to recite "In Table 6 above and in Tables 7 through 13 *infra*, flow rate was 15 ml/sec; Ultrasonic Power was 40 watts, and ultrasonic time was 100 seconds." There is no apparent support for this addition anywhere in the application as filed. Accordingly, it cannot be added to the disclosure at this time.

Applicant is required to cancel the new matter in the reply to this Office Action.

Information Disclosure Statement

The improved copy of reference "AX" has still not been considered. Though the text is partially legible, the tables and figures are almost unreadable. Furthermore, no hard copy is part of the image file record – only the scanned copy. The examiner will not incorporate unreadable information into the official record of this application.

Double Patenting

The obviousness-type double patenting rejections have been withdrawn in view of the terminal disclaimers filed 11/20/03. The terminal disclaimers were proper and have been approved.

Allowable Subject Matter

This application contains allowable subject matter. The claims are allowable over the prior art of record. If the herein above new matter is deleted from the specification, the application could be passed to issue.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of
